QUICK BRIDGE

APEX TRENCH AND MAT

When you need a quality off-the-shelf bridge for the fastest installation possible in short-span situations, the QuickBridge® is an ideal choice. Our steel bridge system is based on fixed span lengths that can be lifted directly from the delivery vehicle onto pre-prepared foundations. You can install this bridge in minutes to get traffic flowing again.

QUICK BRIDGE BENEFITS:

- Appropriate for temporary or permanent applications
- Available in 20', 30' and 40' lengths that can be used in single or multi-span situations for bridges, ramps and platforms
- Standard width of 5.65' can be widened to suit your bridge needs by adding more units
- Appropriate for both public highway and private site use
- Applicable for pedestrian bridges
- Comes complete with anti-skid surfacing
- Composed of structural steel designed to meet AASHTO HS25-44 load specifications
- Can sustain higher loads in off-road situations
- Railings for both pedestrian and vehicle traffic are available
